

## **Job Opportunity for HSE Officer in Chonburi, Thailand (Job ID 2791)**

### **Our Client:**

Our Client is a leading international organization well advanced in the technology "know-how" on pre-fabrication of building components and has expertise in Building Envelopes. With over 125 years aggregated experience in executing diverse building projects, our client is actively participating in the highly developed building industries of Europe, Australia, Asia and recently in the U.S. with eighteen fully equipped assembly plants, research/testing facilities (Italy, Netherlands, Singapore & Australia).

- **Location:** Leamchabang, Chonburi, Thailand
- **Working Days:** Monday - Friday (8:00 am. - 6:30 pm)

### **Job Responsibilities / Essential Function / Key Competencies:**

- Execute, review, update and ensure the compliance of Company and legal HSE procedures, regulation and concerned requirements.
- Execute the implementation and maintaining of ISO 14001, OSHAS 18001 systems and support the HSE manager for internal audit and procedural review.
- Support HSE manager to ensure all HSE records are properly maintained to provide evidence that the HSE Management System is being followed and that there is a system in place for the identification, storage, protection, retrieval, retention time and disposition of such records.
- Participate together with procurement and project department to ensure that suppliers used by the organization are selected, audited/evaluated and re-evaluated and that records of their assessments are maintained.
- To provide weekly/regular HSE statistic performance report with recommendation and improvement measures to HSE manager for review to ensure mitigation measures are proper and adequate.
- Spend not less than 60% of total time performing HSE site and joint inspection, site work method statement and risk assessment review with various departments.
- Provide effective Health, Safety and Environment (HSE) programs for improving the quality of work life and work environment i.e. Environment and Safety programs, communication events, objectives and targets, activities, etc.
- Coordinate investigation into HSE non-conforming, pollution and incident reports to recommend and follow up on timely and effective corrective and preventive actions.
- Ensure that all new staff and relevant sub-contractors are inducted into the requirements of the HSE requirements and responsibilities related to their own roles and responsibilities.
- Identify needs of issuing PPE and other equipment regarding Risk, Hazard or Source of Pollution in each area, provide, effectively plan and ensure PPE distribution to all staff.
- Ensure a smooth emergency response procedure for each case during day and night shift.
- Supervise, coach and develop work performance of subordinate (both Safety and Environment function).
- Perform any other task that assigned by Supervisor or Management Staff.

### **Qualification:**

- Years of Relevant Experience: at least 3-5 years
- ISO 14001 & OHSAS 18001 systems, experience as EMR or SMR will be highly preferred
- Hazardous Chemical & Hazardous Waste Management experience
- Bachelor's degree or higher in Occupational Health and Safety, Industrial Hygiene and Safety, Environmental Health or related fields
- Hold Safety Officer Certification in Professional level or Advance/Technical Level
- MS Office (Word, Excel and PowerPoint)
- Able to communicate in English
